

# **Job Training,** Employment Skills Training - **Apprenticeships, and Internships (JTEST - AI)**

## How It Works

The Air Force will allow eligible Airmen to participate in industry training instead of performing military duties during the last 6 months prior to member's DOS.

## Key Points

- JTEST-AI adds civilian work experience to your résumé before you separate or retire.
- JTEST-AI is a voluntary, self-initiated enrollment program
- JTEST-AI must be approved by your commander.
