START YOUR

NEW LIFE

As A Certified Cyber Warrior

G.I. to I.T.®

CERTIFIED CYBER WARRIOR SKILLBRIDGE PROGRAM

Whether you're concerned about what comes next as you return to civilian life, or have already decided to pursue a career in I.T., this program can help you transition into a rewarding new career in just three months. Even if you have no prior experience with computers. Modeled after the same career development program that has helped thousands launch Information Technology careers, the MyComputerCareer-SkillBridge partnership is now bringing that track record of success to you.

Networking and Cybersecurity Passport to Growth

With close to 2 million* cybersecurity positions expected to go unfilled over the next few years, the I.T. industry is hungry for certified professionals who can help fill this void. Our growing reliance on mobile technology, AI, "big data," and cloud computing creates an ongoing demand for specialists who can design, build, maintain, and secure these vital information resources. And because this demand will exceed the supply for the foreseeable future, I.T. pros with these skills should continue to enjoy abundant opportunity and above-average earnings.

You've demonstrated your desire to protect and defend the American way of life. As a "certified cyber warrior," you'll continue to be part of the protective shield that safeguards our people, our liberty, and our treasured institutions.

KEY FEATURES of the Cyber Warrior Program

- Earn while you learn - Use G.I. Bill® before you transition out
- No prior I.T. training or experience required
- Gain I.T. certifications in high demand
- Hands-on skills training from certified I.T. Professionals
- 1-on-1 mentors help you succeed
- Test-Pass Assistance to GET CERTIFIED
- Lifetime Career Services helps you move into and up in your new career

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at <http://www.benefits.va.gov/gibill>.

The Right Certifications

While returning to school for 4 to 6 years may not be practical for you, a three-month program that arms you with key certifications in high-demand in the I.T. marketplace probably is. Earn the credentials in Network Administration and Cybersecurity that empower you to compete successfully for available jobs.

Master hardware and software fundamentals, operating systems, networking and security essentials

Gain specialized knowledge and skills in network administration

Add key knowledge and skills in network and data security preparing you to protect and defend vital information resources

Learn how hackers think to enhance your skills as an ethical Cybersecurity Specialist

Career Placement Support

Your education is only half the battle. MyComputerCareer's got your six in your mission to launch your new career! With a network of thousands of employers throughout the US, you can expect placement support no matter where you relocate. Our commitment doesn't end with your first position either. We'll continue to support you throughout your career to help you advance as fast and as far as you want to go. Services include resume' and cover letters, mock interviews, networking and scheduled interviews. All at no additional cost.

Why Choose MyComputerCareer?

For over a dozen years, MyComputerCareer has been changing the lives of individuals from every walk of life by leading them into exciting new careers in I.T. The institution is nationally accredited by the Accrediting Council for Continuing Education and Training (ACCET) and offers programs with GI Bill® benefits.

Nationally Accredited by

Meet Your Campus Director/Instructor Timothy "Sean" Giberson

An Air Force veteran with 22 years of service working on nuclear missiles and space lift rockets, Sean landed in I.T. after several post-military occupations. He chose MyComputerCareer to help him through his final transition and worked in several I.T. roles before returning to help others achieve their I.T. career goals. A top-performing instructor, Sean enthusiastically embraced the opportunity to build a campus at Nellis AFB and support his fellow airmen.
